

Feeding the World by numbers

95%
of the World's
farms are
small-scale
(less than 5
hectares).⁵

depend on
small farms for their livelihoods.⁶

2-billion people

1-billion
people in rural
areas live on
less than
\$1.25/day.⁶

Most are small
farmers.

Small-scale
farmers
produce

70%

of the World's
food

on **25%**
of the
World's farmland.⁴

When family farms start using sustainable methods they
could see crop yields up to
79% higher than those
produced by conventional
agriculture.¹
