

## GATES FOUNDATION AGRICULTURAL GRANTS 2003-2014

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Ahmadu Bello University	University	100,000	10-2013	Africa	Nigeria	to aid female farmers in Nigeria by producing a mini participatory reality TV show with incentives for public voting to educate females in the use of draught animals for farming practices and increase cultural acceptance.
Centre for Remote Sensing and Geographic Information Services	University	100,000	04-2014	Africa	Ghana	to facilitate agricultural project development and farm productivity by developing an integrated system using existing technologies to gain feedback from smallholder farmers on agricultural projects that can then be analyzed by stakeholders.
Eduardo Mondlane University	University	100,000	04-2013	Africa	Mozambique	To increase rice production in women-run smallholder farms by establishing ducks and azolla plants as environmentally friendly alternatives to fertilizers, insecticides and herbicides.
Egerton University	University	100,000	05-2012	Africa	Kenya	to develop a simple, cost-effective, solar-powered grain drying unit for prevention of aflatoxin contamination in stored grain.
Federal University of Agriculture, Abeokuta	University	18,813,561	02-2014	Africa	Nigeria	to help 200,000 smallholder farmers sell 2 million tons of cassava roots to make processed products such as high quality cassava flour, chips for animal feed and cassava starch across Nigeria, Ghana, Uganda, Tanzania and Malawi
Institute of Statistical, Social and Economic Research	University	1,413,628	11-2013	Africa	Ghana	to support the institutional capacity of ISSER, help it achieve its goals and contribute to it becoming an important regional hub for MLE within the Agricultural Learning and Impacts Network (ALINe) initiative
Jomo Kenyatta University of Agriculture and Technology	University	150,460	08-2009	Africa	Kenya	to support a conference exploring effective agricultural models that transform the lives of poor resource farmers and other stakeholders in the agricultural value chain by addressing ways of developing engagements that focus issues at all levels
Jomo Kenyatta University of Agriculture and Technology	University	100,000	05-2012	Africa	Kenya	to prevent aflatoxin contamination in maize by introducing RNA interference of key enzymes that enable fungi to synthesize aflatoxin.
Kebbi State University of Science and Technology, Aliero	University	499,726	09-2014	Africa	Nigeria	to increase food security and economic development of farmers in northern Nigeria by reducing the threat of cassava virus diseases by developing local capacity by setting up a molecular laboratory for cassava disease diagnosis in the region, training researchers, extension workers and quarantine officials for preventing the introduction of Cassava Brown Streak Disease (CBSD) to the region, and screening cassava germplasm for resistance to control severe forms of Cassava Mosaic Disease (CMD)
Makerere University	University	493,396	09-2014	Africa	Uganda	to promote sustainable agricultural livelihoods of smallholder farmers in East Africa through improved techniques for diagnosis, surveillance and modeling of viral crop diseases in cassava

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Makerere University	University	499,567	09-2014	Africa	Uganda	to understand the mechanism of reversion in sweetpotato from virus infected to healthy, which occurs at a high frequency in some cultivars of sweetpotato in East Africa, is a heritable characteristic and an opportunity to enable cheap and sustainable seed distribution schemes in subsistence farming systems
Muni University	University	100,000	04-2013	Africa	Uganda	To promote widespread adoption of a small seeds planter that saves time and labor, and increases yield for smallholder women farmers in Uganda by running full-scale field trials of workshops, demonstrations and radio presentations.
Regional Universities Forum for Capacity Building in Agriculture	University	14,195,431	04-2009	Africa	Uganda	to support improved agricultural productivity & wealth creation among rural communities in Africa through networking, advocacy and resource mobilization for university research, training and outreach
Regional Universities Forum for Capacity Building in Agriculture	University	16,231,675	11-2013	Africa	Uganda	to support improved agricultural productivity and wealth creation by developing effective agricultural universities with graduates dedicated to improving rural livelihoods and by promoting research relevant to smallholder farmers in Africa
Stellenbosch University	University	25,000	04-2014	Africa	South Africa	to provide funds for a conference on the Fusarium pathogen infecting bananas in Africa. The conference will enable major stakeholders to come together to develop consensus on addressing the current disease outbreak in Mozambique and preparing other countries against its spread and/or future introduction, defining roles and activities among stakeholders, and identifying and approaching donors for financial assistance
Tshwane University	University	1,279,771	11-2011	Africa	South Africa	to support training and research in legume sciences
United States International University	University	797,888	02-2011	Africa	Kenya	to design and deliver a certificate program for smallholder agribusiness entrepreneurs in Kenya
Université d'Abomey-Calavi	University	499,993	09-2014	Africa	Benin	to increase the productivity of yams in Benin to meet the national needs and stimulate a sustainable increase in incomes for smallholder yam producers and contribute to their food security and economic development
Université des Montagnes	University	100,000	10-2013	Africa	Cameroon	to block the transmission of Human African Trypanosomosis (sleeping sickness) by tsetse flies by identifying different chemical blends to effectively repel the flies as an environmentally friendly method of disease control.
University of Dar es Salaam	University	72,450	05-2013	Africa	Tanzania	to provide support to implement the expansion of the Tanzania Project Mapping Tool
University of Pretoria	University	4,475,287	05-2011	Africa	South Africa	to support policy research and to strengthen African agriculture economies
China Agricultural University	University	235,948	01-2009	Asia	China	to support a conference on agricultural development in Africa
China Agricultural University	University	1,131,312	11-2013	Asia	China	to improve the livelihoods of smallholder and poor farmers in South Asia, sub-Saharan Africa and China through developing and disseminating a long-acting injectable suspension of ivermectin (LA-IVM) to control parasites in ruminant livestock (cattle, goats and sheep) and consequently improve their health and productivity

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Chinese Academy of Agricultural Sciences	University	18,243,636	12-2008	Asia	China	to develop stress resistant rice variety
Chinese Academy of Agricultural Sciences	University	15,000,000	10-2012	Asia	China	to increase food & income security of poor smallholder farmers, particularly women, in sub-Saharan Africa, Southeast and South Asia through the breeding and dissemination of rice cultivars that are efficient and resistant to stresses
The Chinese University of Hong Kong	University	100,000	10-2012	Asia	China	to engineer crops to produce insecticidal Cry protein crystals that encapsulate the anti-bacterial protein lysozyme and release it when a plant's defense mechanisms indicate biotic stress
Center for Development Research at the University of Bonn	University	450,300	07-2010	Europe	Germany	to design strategies for livelihood improvement in marginal environments
Center for Development Research at the University of Bonn	University	1,415,344	10-2011	Europe	Germany	to promote innovations that foster agricultural productivity and rural economic development to all groups of the poor by better matching technology needs and adoption potential of different groups with new agricultural technology characteristics
ETH Zürich	University	2,797,417	11-2013	Europe	Switzerland	to develop cassava varieties for Nigerian farmers that are compatible with a modern and appropriate integrated weed management system
Ghent University	University	198,206	06-2008	Europe	Belgium	to support the Global Cassava Partnership Conference
Imperial College London	University	16,529,688	10-2009	Europe	United Kingdom	to support the delivery of cost-effective school feeding programs in Africa that promotes local agriculture and benefit small-holder farmers
Imperial College London	University	2,692,835	09-2010	Europe	United Kingdom	to enable the UK, French, and European Commission governments to provide more effective agricultural development support for smallholder farmers in sub-Saharan Africa
Imperial College London	University	1,494,953	10-2013	Europe	United Kingdom	for high level advocacy to critical EU donors to promote smallholder agriculture and resilience as primary approach to agriculture development investment
Middlesex University	University	357,624	08-2010	Europe	United Kingdom	to research the role of floodplain community based organizations in coping with risk
National University of Ireland Galway	University	100,000	04-2013	Europe	Ireland	To enable women smallholder farmers in Tanzania to design and develop their own labor-saving agricultural tools for local manufacturing.
Queen's University Belfast	University	100,000	10-2012	Europe	Ireland	to engineer crop plant roots to secrete specific neuropeptides that interfere with nematode development to help reduce crop losses.
Swansea University	University	100,000	10-2012	Europe	Wales	to use the symbiotic gut bacteria of the Western Flower Thrips to deliver interfering RNA that will disable the larvae of this major agricultural pest.
Technical University of Madrid	University	2,927,139	11-2011	Europe	Spain	to support the introduction of biological nitrogen fixation in cereals in Sub-Saharan Africa and South Asia
Université Paris-Sud	University	100,000	05-2012	Europe	France	to develop a biodegradable, water-soluble business card impregnated with bacteriophages targeting bacterial pathogens.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
University of Alcalá	University	100,000	10-2012	Europe	Spain	to develop maize kernels to increase the expression of anti-fungal genes in the transfer cell layer, which transports nutrients and protect filial tissues in the adjacent growing seeds.
University of Cambridge	University	4,230,034	08-2012	Europe	United Kingdom	to support epidemiological modeling in partnership with field researchers to improve strategies for monitoring and management of wheat rust and cassava virus diseases
University of Greenwich	University	16,650,744	04-2008	Europe	United Kingdom	to support sustainable and equitable improvements to cassava value chains and markets in Ghana, Tanzania, Uganda, Nigeria, and Malawi
University of Greenwich	University	100,000	05-2012	Europe	United Kingdom	to test a virulent strain of the endosymbiotic bacteria, Wolbachia, as a biocontrol agent for controlling the whitefly and reducing whitefly-transmitted plant viruses.
University of Greenwich	University	1,479,450	10-2012	Europe	United Kingdom	to develop low cost yam virus diagnostics for quick and reliable field testing of planting material distributed to small holder farmers
University of Greenwich	University	883,576	01-2013	Europe	United Kingdom	to develop whitefly diagnostics, infectious clones of Cassava Brown Streak Virus and standard operating procedures for virologists and breeders that will improve cassava productivity
University of Greenwich	University	1,495,148	02-2013	Europe	United Kingdom	to commercialize clean sweetpotato seed production in areas with a long dry season
University of Oxford	University	100,000	10-2012	Europe	United Kingdom	to engineer a benign parasite as a biological control mechanism against herbivorous insect pests.
University of Reading	University	100,000	10-2013	Europe	United Kingdom	to determine the impact of both human and animal diseases on poverty by devising a one health metric combining standardized poverty impact metrics of individual livestock diseases, and of human disease, using global datasets.
University of Surrey	University	100,000	04-2014	Europe	United Kingdom	to generate an effective vaccine and complementary diagnostic test for human and bovine tuberculosis that can enable the distinction between infected and vaccinated individuals, thereby supporting control efforts in developing countries.
University of Twente	University	7,489,341	05-2014	Europe	Netherlands	to test novel remote sensing-based solutions that offer the potential to better and more cost-effectively meet the information needs of stakeholders in the smallholder-based food production systems and value chains of sub-Saharan Africa and South Asia
Wageningen University	University	21,869,483	09-2009	Europe	Netherlands	to improve soil fertility, nitrogen availability, and protein nutrition by improved use of legumes and microbial inoculants
Wageningen University	University	291,171	10-2009	Europe	Netherlands	to conduct a critical assessment of System of Rice Intensification (SRI), a set of rice cultivation practices designed to increase yields
Wageningen University	University	25,287,408	11-2013	Europe	Netherlands	to increase biological nitrogen fixation and productivity of grain legumes among African smallholder farmers, contributing to enhanced soil fertility, improved household nutrition and increased cash income

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Universidade Federal de Viçosa	University	100,000	10-2013	Latin America	Brasil	to improve land and labor productivity of African smallholder farms by designing and testing a new concept for a seeder machine, which uses only two rotating parts, to enable more efficient and effective planting of crops.
Arizona State University	University	100,000	10-2012	North America	USA	to develop live bacterial-based contraceptive vaccines that deliver testis- and sperm-specific antigens to sterilize rodent populations that destroy food crops.
Arizona State University Foundation	University	1,390,879	08-2012	North America	USA	to improve the productivity of chickens in Uganda
Association of Public and Land-Grant Universities	University	200,273	08-2009	North America	USA	to strengthen the capacity of Sub-Saharan African higher education institutions to contribute more effectively to long-term development through partnerships with U.S. institutions
Columbia Global Center - Africa	University	4,902,237	05-2013	North America	USA	to expand the effective use of scientific information to ensure that Africa's soil and landscape resources are described, understood and used effectively to help sustainably raise agricultural productivity
Columbia University	University	50,000	10-2010	North America	USA	to support the Earth Institute's International Nitrogen Conference
Cornell University	University	963,261	05-2007	North America	USA	to support the exploration of alternative information and educational technologies to deliver a current and locally tailored agricultural curriculum for African and Asian agricultural education, extension and outreach to smallholder producers
Cornell University	University	26,830,848	02-2008	North America	USA	to develop improved rust resistant wheat varieties to protect resource-poor farmers
Cornell University	University	2,119,433	07-2009	North America	USA	to promote curriculum enhancement, improved research and extension quality of scientific agricultural literature used by faculty and students in agricultural colleges and universities in sub-Saharan Africa
Cornell University	University	496,100	09-2010	North America	USA	to understand political economy determinants of food policy decisions
Cornell University	University	25,000,000	02-2011	North America	USA	to develop improved rust disease-resistant wheat varieties to protect resource-poor farmers
Cornell University	University	3,138,514	04-2011	North America	USA	To support increasingly efficient breeding methods for public good in wheat and maize improvement programs
Cornell University	University	192,102	05-2012	North America	USA	to provide a better understanding of the impacts of high oil prices on African agricultural productivity and food security and ways to assess and mitigate those impacts
Cornell University	University	19,895,459	09-2012	North America	USA	to increase dramatically the rate of improvement for the staple root crop cassava, beginning by strengthening conventional breeding programs in Nigeria and Uganda by hastening the time to flower and improving the seed set of cassava

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Cornell University	University	100,000	10-2012	North America	USA	to uncover genetic targets in plants that interact with specific structures buried within the RNA of viral genomes to allow viruses to replicate and cause disease in food crops.
Cornell University	University	1,234,931	09-2013	North America	USA	To test digital approaches to detect and model the effects of novel mutations in cassava, with a view to improving the accuracy of genomic selection predictions in cassava breeding
Cornell University	University	4,998,085	10-2013	North America	USA	to improve the effectiveness of agricultural research, extension, policy and education through enhanced access to and effective use of the international and local agricultural knowledge-base
Cornell University	University	5,591,694	06-2014	North America	USA	to support a global agricultural communications platform that will improve understanding of science-based agricultural technologies
Dakota Wesleyan University	University	25,000	09-2008	North America	USA	to support an agricultural conference
Drexel University	University	100,000	10-2013	North America	USA	to increase productivity and reduce labor and associated physical injuries of smallholder rice farmers in Asia by optimizing the design and promoting the local implementation of their planting and weeding tools.
Global Business School Network	University	25,000	05-2009	North America	USA	to support a conference to frame a new initiative and provide direction to promote agribusinesses in Africa through the business schools in the Global Business School Network
Global Business School Network	University	182,205	01-2010	North America	USA	to support a consortium of African business schools in developing a plan to increase their course offerings and programs aimed at the agriculture and health sectors
Hampshire College	University	100,000	10-2013	North America	USA	to increase the yield of pearl millet, which is a staple crop in sub-Saharan Africa, by developing a cheap and simple threshing machine to help women smallholder farmers more easily and carefully extract the edible grains.
Harvard University	University	1,474,392	03-2009	North America	USA	to promote the benefits of science and technology for African agriculture by promoting discussion in Africa of an African Union commissioned and endorsed independent, expert report issued by the African High-level Panel on Biotechnology
Harvard University	University	3,000,000	02-2013	North America	USA	to develop a grant proposal for a program of work that will support improved allocation and use of public sector resources for the delivery of primary health care (PHC) in India and Ethiopia
Harvard University	University	899,996	03-2013	North America	USA	to promote the benefits of science and technology for African agriculture by promoting discussion and dissemination in Africa of an African Union commissioned and endorsed independent, expert report issued by the African High-level Panel on Biotech
Iowa State University	University	289,094	06-2009	North America	USA	to develop a public access network of African agricultural professionals in the diaspora as a resource to spark the transfer of knowledge, innovation, technical assistance, and entrepreneurialism between expatriates and their African colleagues

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Iowa State University	University	1,459,460	05-2010	North America	USA	to support implementation of policy changes aimed at increasing the supply and access to seed of improved varieties across selected countries in sub-Saharan Africa to enhance productivity on small farms
Iowa State University	University	100,000	04-2013	North America	USA	To save labor and time for smallholder women farmers in Uganda by designing and evaluating a simple, portable, hand-operated seed cleaner, which also enhances grain quality.
Johns Hopkins University	University	152,243	02-2009	North America	USA	to provide a forum to discuss current challenges, technological developments and potential future collaborations to develop sustainable and transferrable solutions to the pressing issues related to water and agriculture
Kansas State University	University	498,006	07-2009	North America	USA	to support a study to understand the impact of water efficient maize varieties on small-holders in Africa
Kansas State University	University	1,670,504	08-2013	North America	USA	to analyze comprehensively the interaction between many hundreds of genes in a crop plant and infecting fungal disease, with the goal of generating new resources to protect farmers from crop losses
Massachusetts Institute of Technology	University	4,465,071	06-2009	North America	USA	to develop and rigorously test programs that improve adoption and profitable use of agricultural technology by small-scale farmers in Sub-Saharan Africa and South Asia
Massachusetts Institute of Technology	University	393,706	09-2009	North America	USA	to improve the chemistry of nitrogen catalysts
Massachusetts Institute of Technology	University	104,308	05-2013	North America	USA	to provide conference support for the Agricultural Technology Adoption Initiative Conference Series
McGill University (Royal institution for the advancement of learning)	University	99,350	08-2008	North America	Canada	to support an agricultural development conference
McGill University (Royal Institution for the advancement of learning)	University	100,000	02-2012	North America	Canada	to support a conference that will engage a unique set of actors and experts working at the intersection of agriculture, public health, and private sector growth to identify opportunities for improving nutritional outcomes in India
Michigan State University	University	3,190,588	03-2008	North America	USA	to strengthen the research-based communication, outreach, and issue advocacy activities of the Partnership to Cut Hunger and Poverty in Africa to accelerate African and agriculture-led, sustained, broad-based economic growth on the continent
Michigan State University	University	4,450,484	10-2008	North America	USA	to support a project identifying strategic opportunities for promoting incomes and food security
Michigan State University	University	13,294,412	07-2009	North America	USA	to create a center in Africa that provides training, education, and technical support for African regulators to make informed decisions on how to use biotechnology while protecting farmers, consumers, and the environment
Michigan State University	University	1,440,578	10-2009	North America	USA	to develop open education resources to improve curricula at the MSc level in Africa

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Michigan State University	University	7,815,486	11-2012	North America	USA	to support a project identifying strategic opportunities for promoting incomes and food security
Michigan State University	University	1,497,449	10-2013	North America	USA	to evaluate the potential of perennial grain crops for African smallholder farmer systems
Michigan State University	University	1,454,063	07-2014	North America	USA	to develop a prototype precision Integrated Pest Management (IPM) platform for the control of major cowpea pests in West Africa that will lay the foundation for the doubling of cowpea yields by smallholder farmers
Mississippi State University	University	100,000	05-2012	North America	USA	to develop portable and cost effective technology to rapidly detect aflatoxin contamination in whole maize ears in rural areas of developing countries.
Montana State University Bozeman	University	100,000	10-2013	North America	USA	to increase crop yield for women smallholder farmers by field-testing their developed fungal strain as an easily distributable and safe biological control method for eliminating the parasitic weed Striga, which inhibits crop growth.
National Association of State Universities and Land-Grant Colleges	University	100,000	05-2008	North America	USA	to establish an organizational structure for grantmaking in support of tertiary education in Africa, particularly for agriculture
North Carolina State University	University	100,000	05-2012	North America	USA	to develop a biodegradable cellulose matrix platform comprising active ingredients that can be used for seed treatment.
North Carolina State University	University	12,409,389	08-2014	North America	USA	To develop modern genomic, genetic, and bioinformatics tools to facilitate crop improvement and improve genetic gains in sweet potato, an important food security and cash crop with highly recognized potential to alleviate hunger, vitamin A deficiency, and poverty in Sub-Saharan Africa, predominantly grown in small plots by poor women farmers.
Oregon State University	University	100,000	10-2012	North America	USA	to develop rice plants that accumulate higher levels of thiamine (vitamin B1) to test the theory that boosting thiamine enhances the plant's resistance to disease.
Pennsylvania State University	University	100,000	05-2012	North America	USA	to produce plants expressing RNAi designed to sterilize ant queens in an effort to reduce populations of ants that act as bodyguards to the aphids that damage plant crops.
Purdue University	University	12,034,439	06-2007	North America	USA	to increase regional trade and raise farm income with non-chemical, hermetic storage for cowpea grain
Purdue University	University	1,392,712	04-2011	North America	USA	to validate scientifically the applicability of this hermetic storage technology to agricultural commodities other than cowpea
Purdue University	University	4,992,837	11-2011	North America	USA	to improve the livelihoods of sorghum farmers in Ethiopia and Tanzania through increased crop yields by developing, promoting, and deploying Striga control in a participatory and value chain approach in partnerships with key stakeholders

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Purdue University	University	1,000,000	10-2012	North America	USA	to develop a genetic and genomic resource that enables a better understanding of the phenotypic variation that will assist sorghum researchers to translate such knowledge into practical applications in sorghum improvement
Purdue University	University	10,072,080	04-2014	North America	USA	to increase the use of hermetic storage technologies by 20% of grain stored on-farm in target countries, thereby reducing cereal and legume grain post-harvest losses and so increasing incomes and improving food security of smallholder farmers in Sub-Saharan Africa
Purdue University	University	921,701	08-2014	North America	USA	to increase the productivity and incomes of poor farmers by facilitating the growth of the input and output markets associated with sorghum and millet in the Sahel
Regents of the University of California at Riverside	University	100,000	05-2012	North America	USA	to develop a low-cost stamp to directly print biosensors on maize leaves for the detection of biotic stresses.
Rice University	University	100,000	04-2012	North America	USA	to use light entrainment of plant circadian rhythms and mechanical perturbation to enhance crop biotic stress resistance.
Rockefeller University	University	100,000	04-2014	North America	USA	to improve treatment of African trypanosomiasis in humans and cattle by testing the ability of a drug that was originally developed for treating cancer and heart disease to cure trypanosome infections, and evaluating its mechanism of action.
Royal Institution for the Advancement of Learning McGill University	University	100,000	04-2014	North America	Canada	to use the knowledge and expertise of women smallholder farmers in developing countries to better inform agricultural development projects for food security by using special interview techniques and providing visual communication aids.
Stanford University	University	1,089,117	07-2010	North America	USA	to support the development of an open access lecture series on agriculture and development
Texas A&M Foundation	University	1,000,000	10-2009	North America	USA	to support the Borlaug International Scholars Fund
The College of William & Mary	University	100,000	10-2012	North America	USA	to design and test "nets" of sound that block vocal communication and hearing in pest bird species, causing them to move away from crop areas.
University Health Network	University	2,992,320	03-2008	North America	Canada	to facilitate the successful and appropriate adoption of agricultural technologies
University of Arizona	University	100,000	10-2012	North America	USA	to develop a fungal resistant, aflatoxin-free groundnut by suppressing fungal growth and inhibiting the fungus' ability to biosynthesize the mycotoxin compound.
University of Arizona	University	100,000	10-2012	North America	USA	to modify existing genes in cassava plants that are essential for the translation and replication of Cassava brown streak virus.
University of Arizona Foundation	University	1,318,747	10-2009	North America	USA	to develop a next-generation platform to identify cassava molecular markers for crop improvement
University of California	University	36,757	01-2009	North America	USA	to support a study of intellectual property rights for improved crops to serve small holder farmers

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
University of California - Berkeley	University	223,230	04-2009	North America	USA	to identify ICT-based applications and systems that can increase African smallholder productivity, profitability, and sustainability
University of California, Davis	University	346,263	11-2009	North America	USA	to enhance wheat resistance to multiple rust diseases
University of California, Davis	University	928,023	05-2012	North America	USA	to provide long-term strategies for protecting wheat against rust fungi which threaten the food supply in multiple developing countries
University of California, Davis	University	100,000	10-2012	North America	USA	to develop targeted nucleases that can be used to engineer cassava-infecting geminivirus resistance into staple African cassava varieties.
University of California, Davis	University	161,949	02-2013	North America	USA	to provide public researchers working to improve the wheat crop with access to the most efficient and effective technologies for modifying the crop
University of California, Irvine	University	100,000	10-2013	North America	USA	to reduce the environmental and labor costs of cooking stoves in developing countries by improving the performance and reducing the cost of their energy storage device, which collects and stores solar energy for indoor or night-time cooking.
University of Connecticut	University	100,000	10-2012	North America	USA	to demonstrate that protozoa can be used to spatially disseminate beneficial bacteria throughout the zone of soil around the plant roots.
University of Georgia	University	245,780	10-2012	North America	USA	to enhance quality assurance and control in seed production and delivery in Uganda
University of Georgia Research Foundation, Inc.	University	150,000	08-2010	North America	USA	to support research that will reduce the spread of disease in poultry
University of Georgia Research Foundation, Inc.	University	1,499,811	03-2011	North America	USA	to support research that will reduce the spread of diseases common in African poultry
University of Georgia Research Foundation, Inc.	University	100,000	10-2013	North America	USA	to promote widespread adoption of a milk churner used to prolong the life of milk harvested in the evening by consulting women in Uganda to help make it more ergonomic and culturally appropriate for women users.
University of Illinois at Urbana-Champaign	University	24,899,307	10-2012	North America	USA	to increase the sustainable yield of food crop varieties for resource poor farmers through improved photosynthetic efficiency
University of Maryland	University	100,000	10-2012	North America	USA	to develop a genetic system that enables targeted delivery and release of antimicrobial proteins across the extrahaustorial membrane, the appendage used by pathogens to penetrate host plant cells.
University of Michigan	University	146,547	06-2011	North America	USA	to identify the key coping mechanisms that poor and marginal households use to cope with agricultural risks, the role of institutions and collective action in coping with risks, and the effectiveness of individual vs. collective coping mechanisms
University of Minnesota	University	2,374,157	11-2013	North America	USA	to develop cassava varieties for Nigerian farmers that are compatible with a modern and appropriate integrated weed management system

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
University of Nebraska Foundation	University	50,000	04-2010	North America	USA	to assemble a diverse group of representatives from government, research institutions, and the private sector to focus on issues of water for agricultural production
University of Nebraska Foundation	University	150,000	08-2011	North America	USA	to support the annual Water for Food Conferences which bring together experts from around the world to discuss the advances that can provide potential solutions for water resource management for rapidly growing at-risk populations
University of Nebraska-Lincoln	University	2,034,324	11-2011	North America	USA	to provide a web-based platform to estimate gaps in yield and water productivity for key crops in Sub-Saharan Africa and South Asia.
University of Nebraska-Lincoln	University	100,000	05-2012	North America	USA	to investigate variations that might influence a plant's ability to adapt to its environment, and exploit those for more rapid breeding of more robust and stress-tolerant crops.
University of Nebraska-Lincoln	University	100,000	10-2012	North America	USA	to test direct repeat- induced gene silencing for its ability to target multiple crop viruses at once, allowing the development of a wheat strain resistant to multiple major diseases.
University of Nebraska-Lincoln	University	2,996,073	10-2013	North America	USA	to enhance the productivity of smallholder farmers by breeding intrinsic, stable, but non-genetic (epigenetic) yield gain
University of Nebraska-Lincoln	University	1,255,923	04-2014	North America	USA	to support Global Yield Gap Atlas in providing robust estimates of exploitable gaps in yield and water productivity for the world's major food crops, enabling farmers, governments, policy makers, agricultural research and extension institutions, funders of agricultural research, foundations, private sector organizations to identify regions with the greatest potential to sustainably increase global food supply with improved management practices. This information also supports efforts to identify causes of yield gaps and taking improved agronomic technologies to scale
University of Notre Dame	University	100,000	04-2014	North America	USA	to enable buyers of human and animal medications to assess their quality by developing a cheap paper card to easily and quickly measure the chemical composition of fifty common drugs using colorimetric changes.
University of Rochester	University	100,000	05-2012	North America	USA	to test if Spiroplasma, a bacterial symbiont in Drosophila that confers resistance to nematodes, can be used in crops to confer resistance to plant-parasitic nematodes.
University of Vermont	University	100,000	10-2013	North America	USA	to identify drugs that can be repurposed to treat the parasite Cryptosporidium, which causes severe diarrhoea in humans and cattle, by developing an infected animal model using calves, which closely mimics the human disease.
University of Wisconsin	University	250,000	01-2014	North America	USA	to develop a platform for the control and eradications of diseases in plants and livestock in sub-Saharan Africa and south Asia
Washington State University	University	100,000	10-2013	North America	USA	to reduce the incidence and severity of malaria and East Coast Fever (ECF) in humans and cattle respectively, by testing the effect of treating co-occurring helminth parasitic infections that may exacerbate them via modulating the immune system.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Washington University School of Medicine	University	100,000	10-2013	North America	USA	to produce an in vitro culture of the parasite Cryptosporidium, which causes severe diarrhoea in humans and animals, by differentiating epithelial cells from isolated stem cells to mimic the small intestine, for high-throughput drug screens
Yale University	University	100,000	10-2013	North America	USA	to promote new discoveries for treating disease by developing a search and document clustering software environment so that researchers can better utilize the vast and currently divergent literature on human and veterinary medicine.
Yale University	University	1,330,995	10-2013	North America	USA	to develop a robust, efficient genetic system for production of hybrid seed of important cereal crops that can be used by small seed companies and smallholder seed producers in Africa and South Asia
Charles Sturt University	University	100,000	10-2013	Oceania	Australia	to increase milk production in Pakistani dairy buffaloes by testing a device that enables the controlled internal release of progesterone to induce pregnancy and thereby reduce the long calving interval.
Queensland University of Technology	University	499,000	06-2011	Oceania	Australia	for general operating support to strengthen CAMBIA's programs
Queensland University of Technology	University	3,989,596	10-2012	Oceania	Australia	to develop East African Highland Bananas with significantly increased levels of pro-vitamin A and iron to help address the problem of micronutrient malnutrition in Uganda
Queensland University of Technology	University	1,627,719	11-2013	Oceania	Australia	to create and use a shared, global platform to aggregate and integrate innovation knowledge as a public good
The University of Sydney	University	431,253	11-2009	Oceania	Australia	to support increasing skills in cereal rust pathology and genetics in the developing world
University of Adelaide	University	100,000	04-2013	Oceania	Australia	To identify sustainable and broadly applicable labor-saving solutions in developing countries by creating a virtual Evolutionary Learning Laboratory to incorporate and develop views from farmers, policy makers, and developers.
University of Melbourne	University	100,000	10-2013	Oceania	Australia	to develop an effective vaccine against the parasite Theileria parva, which causes East Coast Fever in cattle, by conjugating parasite lysates to nanobeads, which act as an adjuvant to induce a strong immune
University of New England	University	2,895,698	06-2010	Oceania	Australia	to improve the livelihoods of small-holder dairy farmers in East Africa by supplying the genotypes that best suit the production level and system of individual farmers
University of New England	University	1,325,836	08-2013	Oceania	Australia	to identify germplasm needs and deliver proposed solutions to dairy cattle genetic supply for existing and rapidly expanding smallholder dairy systems in the target countries
University of Queensland	University	100,000	05-2012	Oceania	Australia	to develop a 'BioClay' technology to deliver biological agents that kill crop pathogens and pests.
University of Queensland	University	3,990,198	11-2012	Oceania	Australia	to generate step change in the capacity and productivity of sorghum breeding programs in sub-Saharan Africa and to provide a strategic platform to underpin genetic gain for productivity in environments that are water limited

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Africa Rice Center	CGIAR	50,000	10-2013	CGIAR	CGIAR	to facilitate exchange of information about the improvement of rice production, processing and marketing to support rice sector development in Africa to the benefit of rice farmers and rice consumers. The Congress provides an opportunity for rice scientists, development partners and rice value chain actors to meet and discuss.
Africa Rice Center	CGIAR	7,500,000	11-2013	CGIAR	CGIAR	to reduce poverty and hunger and increasing food and income security of resource-poor farm families and rice consumers in sub-Saharan Africa through acceleration of the development of abiotic stress tolerant rice varieties by exploiting genetic variation in <i>Oryza glaberrima</i> , a cultivated <i>Oryza</i> species unique to Africa
Bioversity International	CGIAR	1,766,369	12-2008	CGIAR	CGIAR	to support the development of geospatial data and technology
Bioversity International	CGIAR	3,098,068	11-2009	CGIAR	CGIAR	to measure and assess the impacts of the diffusion of improved crop varieties in Africa
Bioversity International	CGIAR	480,000	11-2009	CGIAR	CGIAR	to support a study of the nutritional contributions of traditional foods to the wellbeing of the rural poor in Africa
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	5,800,000	12-2006	CGIAR	CGIAR	to decrease hunger and increase food and income security of resource-poor farm families in sub-Saharan Africa through development and dissemination of drought-tolerant maize varieties
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	9,650,262	05-2007	CGIAR	CGIAR	to contribute to the development of improved legume varieties in sub-Saharan Africa
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	33,301,753	11-2007	CGIAR	CGIAR	to decrease hunger and increase food and income security of resource-poor farm families in sub-Saharan Africa through development and dissemination of drought-tolerant maize varieties
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	15,619,250	07-2009	CGIAR	CGIAR	to coordinate The Generation Challenge Program, a global effort to develop tools, databases and precision phenotyping facilities that will accelerate breeding gains for rice, maize, wheat, sorghum and cowpea via molecular marker integration
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	18,307,621	09-2009	CGIAR	CGIAR	to develop improved varieties of maize for higher yields on the low-nitrogen soils prevalent in Africa
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	8,968,135	04-2010	CGIAR	CGIAR	to contribute to the development of improved legume varieties in sub-Saharan Africa and South Asia by advancing molecular breeding for traits of importance in both regions
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	33,100,001	11-2011	CGIAR	CGIAR	to develop and disseminate drought-tolerant maize varieties for small farmers in sub-Saharan Africa
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	5,987,053	05-2012	CGIAR	CGIAR	to decrease hunger and poverty by enhancing the capabilities of African breeding programs that deliver products to smallholders by establishing a nonprofit, African based, service provider that generates fixed lines for maize breeders (private and public) using rapid fixation technologies (single-seed-decent procedures and dihaploid technology)

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	50,000	06-2012	CGIAR	CGIAR	for conference support
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	49,910	08-2013	CGIAR	CGIAR	to support a conference on maintaining cereal productivity under climate change through international collaboration
Centro Internacional de Mejoramiento de Maiz y Trigo	CGIAR	1,484,640	08-2013	CGIAR	CGIAR	to effectively manage the maize lethal necrosis (MLN) disease through accelerated development of elite germplasm with MLN resistance, thereby contributing to enhanced maize production, livelihoods, and food security of eastern African small-holder farmers who are dependent on maize
Consortium of International Agricultural Research Centers	CGIAR	4,992,246	11-2012	CGIAR	CGIAR	to collect, organize and analyze data to provide evidence-based assessments of the impact of CGIAR research investments on productivity, poverty and food security
International Center for Tropical Agriculture	CGIAR	6,000,000	11-2005	CGIAR	CGIAR	to demonstrate that biofortified crops can be delivered effectively to farmers and consumers to reduce micronutrient malnutrition
International Center for Tropical Agriculture	CGIAR	281,055	12-2007	CGIAR	CGIAR	to improve understanding and increase application of Integrated Soil Fertility Management in Africa through the development, publication and distribution of standard reference book
International Center for Tropical Agriculture	CGIAR	15,695,866	11-2008	CGIAR	CGIAR	to provide accurate, up-to-date information about soil resources, and their management to support sound decision and policymaking
International Center for Tropical Agriculture	CGIAR	4,825,343	12-2008	CGIAR	CGIAR	to evaluate and scale up new chemical and biological commercial products for improving and sustaining crop yields
International Center for Tropical Agriculture	CGIAR	140,000	03-2010	CGIAR	CGIAR	to support a workshop reforming the Consultative Group on International Agricultural Research's Participatory Research and Gender Analysis Program, supporting gender-sensitive participatory research on agricultural issues focused on farmer needs
International Center for Tropical Agriculture	CGIAR	1,890,228	03-2010	CGIAR	CGIAR	to support efforts to accelerate breeding of cassava for greater productivity, disease resistance and other traits that will benefit smallholder farmers in the developing world
International Center for Tropical Agriculture	CGIAR	725,048	06-2011	CGIAR	CGIAR	for general operating support
International Center for Tropical Agriculture	CGIAR	100,000	05-2012	CGIAR	CGIAR	to develop protocols to produce synthetic seeds for propagation of disease-free true-type cassava plants.
International Center for Tropical Agriculture	CGIAR	100,000	10-2012	CGIAR	CGIAR	to modify the autophagy pathway that plants use to sequester and degrade damaged proteins, to instead target and destroy proteins of pathogenic viruses.
International Center for Tropical Agriculture	CGIAR	10,000	04-2013	CGIAR	CGIAR	to provide funding for a conference to bring together key leaders in the cassava field to coordinate a road map for dealing with cassava viruses in Africa
International Center for Tropical Agriculture	CGIAR	100,000	04-2014	CGIAR	CGIAR	to support agricultural development projects by involving all stakeholders including local farmers using a feedback approach built around cycles of five questions with an integrated web platform to enable general discussions.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Center for Tropical Agriculture	CGIAR	3,098,545	05-2014	CGIAR	CGIAR	To improve the income and food security of cassava farmers and of other stakeholders by developing doubled haploid technology for the production of inbred lines that will be used by cassava breeders to increase rates of genetic gain for traits of importance along the value chain
International Centre for Research on Agroforestry	CGIAR	15,000	03-2007	CGIAR	CGIAR	to support a two-day workshop to plan a 2008 international conference on improved strategies for soil fertility and soil-system management in developing nations
International Centre for Research on Agroforestry	CGIAR	13,566,219	11-2007	CGIAR	CGIAR	to build an effective and transferable career development program for women in agricultural research and development in sub-Saharan Africa
International Centre for Research on Agroforestry	CGIAR	14,317,317	08-2012	CGIAR	CGIAR	to accelerate African gender-responsive agricultural development by strengthening the scientific and leadership skills of women agricultural researchers in sub-Saharan Africa
International Crops Research Institute for the Semi-Arid	CGIAR	690,000	06-2014	CGIAR	CGIAR	to support genomic resource development, software tools and piloting of modern breeding approaches to adopt modern breeding technologies for our focus legume crops
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	21,980,000	08-2007	CGIAR	CGIAR	to increase the production of tropical grain legume in sub-Saharan African and South Asia
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	250,012	05-2008	CGIAR	CGIAR	to support a scoping project of village level studies
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	30,000	08-2008	CGIAR	CGIAR	to support a conference on agricultural water management in Africa
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	9,950,000	02-2009	CGIAR	CGIAR	to increase the availability of longitudinal district-, household-, individual-, and field-level data
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	21,500,000	07-2009	CGIAR	CGIAR	to boost the incomes of small-holder farmers in moisture-deficient areas of Sub-Saharan Africa and South Asia by increasing their yields of sorghum, pearl millet, and finger millet
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	21,000,000	09-2011	CGIAR	CGIAR	to develop improved legume varieties in sub-Saharan Africa and South Asia
International Crops Research Institute for the Semi-Arid Tropics	CGIAR	1,000,000	04-2013	CGIAR	CGIAR	to generate a reference genome sequence for pearl millet, which will contribute to the improved rate of genetic gain through development of improved varieties and hybrids in sub-Saharan Africa and South Asia
International Food Policy Research Institute	CGIAR	25,000,000	09-2003	CGIAR	CGIAR	to support the activities of the HarvestPlus Challenge Program to reduce micronutrient deficiencies in developing countries by breeding higher levels of essential micronutrients into staple crops
International Food Policy Research Institute	CGIAR	149,462	06-2006	CGIAR	CGIAR	to support a conference on the productivity and profitability of the crop-based production systems of the world's poor and undernourished

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Food Policy Research Institute	CGIAR	4,740,643	08-2006	CGIAR	CGIAR	to build state of the art model to assist in making agricultural technology development and adoption investment choices
International Food Policy Research Institute	CGIAR	200,000	01-2007	CGIAR	CGIAR	to support a conference on how best to reach the poverty and hunger Millennium Development Goals (MDG)
International Food Policy Research Institute	CGIAR	30,000	07-2007	CGIAR	CGIAR	to support the second conference of the African Association of Agricultural Economists
International Food Policy Research Institute	CGIAR	8,850,000	12-2007	CGIAR	CGIAR	to support the research and development of biofortified staple crops for developing countries
International Food Policy Research Institute	CGIAR	198,188	02-2008	CGIAR	CGIAR	to develop a plan for a Global Open Food and Agriculture University initiative
International Food Policy Research Institute	CGIAR	2,692,862	04-2008	CGIAR	CGIAR	to provide an internationally available database in agricultural research investments in developing countries
International Food Policy Research Institute	CGIAR	1,265,466	09-2008	CGIAR	CGIAR	to improve global food security by learning from successes in agricultural development
International Food Policy Research Institute	CGIAR	45,000,000	11-2008	CGIAR	CGIAR	to develop and deliver biofortified staple crops to reduce micronutrient deficiencies in developing countries
International Food Policy Research Institute	CGIAR	2,699,737	01-2009	CGIAR	CGIAR	to support a study of maize and groundnut value chains
International Food Policy Research Institute	CGIAR	4,957,659	07-2009	CGIAR	CGIAR	to provide a significantly improved platform for integrated modeling and scenario development
International Food Policy Research Institute	CGIAR	356,057	11-2009	CGIAR	CGIAR	to co-fund a planning grant to establish a global, Africa-focused forum that provides leadership, innovation, and support for rural advisory services assisting smallholder farmers in realizing significant improvements in production and incomes
International Food Policy Research Institute	CGIAR	2,999,197	07-2010	CGIAR	CGIAR	to assess how well current donor and grant programs address gender inequalities in developing countries in order to improve women's control and ownership of productive assets
International Food Policy Research Institute	CGIAR	8,522,236	11-2010	CGIAR	CGIAR	to develop a model that will assist in making agricultural technology development and adoption investment choices
International Food Policy Research Institute	CGIAR	5,006,540	11-2010	CGIAR	CGIAR	to determine the knowledge and capacity needs of evidence and outcome based agricultural policy planning and implementation among African countries
International Food Policy Research Institute	CGIAR	300,000	11-2010	CGIAR	CGIAR	to provide conference support
International Food Policy Research Institute	CGIAR	4,700,698	11-2011	CGIAR	CGIAR	to contribute to the Ethiopian Agricultural Transformation Agency (ATA) by supporting ATA's program delivery which aims to accelerate Ethiopia's agricultural development, grow the economy, and improve the livelihood of smallholder farmers

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Food Policy Research Institute	CGIAR	4,039,017	11-2011	CGIAR	CGIAR	to support agricultural R&D investment research, agricultural capacity research, and advocacy for increased public investment in agricultural research
International Food Policy Research Institute	CGIAR	4,996,466	09-2013	CGIAR	CGIAR	to expand and deepen the preeminent platform for economic and biophysical modeling of agricultural technology and policy driven food supply response to allow research to be better targeted to small farmers
International Food Policy Research Institute	CGIAR	39,817,533	10-2013	CGIAR	CGIAR	to improve nutrition and public health by breeding and disseminating staple food crops that are rich in vitamins and minerals
International Institute of Tropical Agriculture	CGIAR	74,871	03-2008	CGIAR	CGIAR	to support research and strategy focused conference on the banana as a staple food and export crop
International Institute of Tropical Agriculture	CGIAR	3,921,371	11-2009	CGIAR	CGIAR	to study breeding for Cassava Brown Streak and Mosaic Disease tolerance in Tanzania and Uganda
International Institute of Tropical Agriculture	CGIAR	259,787	11-2009	CGIAR	CGIAR	to support yam research and development in West Africa
International Institute of Tropical Agriculture	CGIAR	6,759,003	04-2011	CGIAR	CGIAR	to develop and implement a robust Striga threat reduction strategy that identifies and promotes scientifically proven technologies for smallholder farmers in Kenya and Nigeria
International Institute of Tropical Agriculture	CGIAR	1,319,661	05-2011	CGIAR	CGIAR	to develop and commercialize aflatoxin management tools to improve public health, increase trade, augment smallholder income, and enhance food security in Nigeria and Kenya
International Institute of Tropical Agriculture	CGIAR	13,008,413	09-2011	CGIAR	CGIAR	to double the productivity of yams in major producing countries - Ghana and Nigeria and thereby stimulate sustainable increase in incomes for smallholder yam producers and contribute to their food security and economic development
International Institute of Tropical Agriculture	CGIAR	7,032,267	04-2012	CGIAR	CGIAR	to improve the crop yields of smallholder farmers in sub-Saharan African countries through quality assessment, institutionalizing processes for testing and regulatory procedures and dissemination of effective agricultural commercial products
International Institute of Tropical Agriculture	CGIAR	5,721,526	06-2012	CGIAR	CGIAR	to improve cassava productivity, sustainability, and food security in Eastern and Southern African regions by deploying virus-free cassava varieties with dual resistance to cassava mosaic disease and cassava brown streak disease
International Institute of Tropical Agriculture	CGIAR	50,000	03-2013	CGIAR	CGIAR	to support a conference to discuss the set-up, funding and management of a cassava germplasm bank for East Africa applying a more farmer-centric approach
International Institute of Tropical Agriculture	CGIAR	29,848	08-2013	CGIAR	CGIAR	to host a conference to discuss strategies for banana and plantain improvement
International Institute of Tropical Agriculture	CGIAR	7,656,326	09-2013	CGIAR	CGIAR	to develop and assess - with smallholder farmer participation - modern, relevant and appropriate cassava weed management technologies suitable for sustainable intensification in major agro-ecological and socio-economic conditions of Nigeria

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Institute of Tropical Agriculture	CGIAR	703,941	09-2013	CGIAR	CGIAR	to develop a system for future improvements to yam varieties
International Institute of Tropical Agriculture	CGIAR	2,595,383	10-2013	CGIAR	CGIAR	to develop varieties of enset banana that are resistant to bacterial wilt to protect a critical food security crop in Ethiopia
International Livestock Research Institute (ILRI)	CGIAR	75,000	10-2010	CGIAR	CGIAR	to support the development of a business plan for the Biosciences eastern and central Africa initiative at the International Livestock Research Institute
International Livestock Research Institute (ILRI)	CGIAR	2,034,600	08-2011	CGIAR	CGIAR	to provide core support for the Biosciences eastern and central Africa initiative at the International Livestock Research Initiative
International Livestock Research Institute (ILRI)	CGIAR	1,438,727	06-2013	CGIAR	CGIAR	to prepare for and support a Program for Emerging Agricultural Research Leaders (PEARL) in sub-Saharan Africa
International Livestock Research Institute (ILRI)	CGIAR	300,001	06-2013	CGIAR	CGIAR	to understand the molecular and genetic basis of maize x sorghum hybrids and set precedence for systematic crosses between maize and sorghum using a wider range of germplasm
International Livestock Research Institute (ILRI)	CGIAR	10,999,924	10-2013	CGIAR	CGIAR	to improve vaccines for the control of East Coast fever in cattle in Africa
International Potato Center	CGIAR	600,000	06-2008	CGIAR	CGIAR	to support sweetpotato improvement in Sub-Saharan Africa
International Potato Center	CGIAR	22,550,000	08-2009	CGIAR	CGIAR	to produce high-yielding, stress-tolerant varieties of sweet potato to help farming families in Sub-Saharan Africa improve their productivity, incomes, and nutrition
International Potato Center	CGIAR	6,499,991	05-2011	CGIAR	CGIAR	to advocate for the increased production and utilization of orange-fleshed sweet potato to combat Vitamin A deficiency in sub-Saharan Africa
International Potato Center	CGIAR	100,000	05-2012	CGIAR	CGIAR	to introduce compounds into in-vitro growth media used to propagate cloned food crops in an effort to eliminate plant viruses.
International Potato Center	CGIAR	100,000	10-2012	CGIAR	CGIAR	to identify key genes in African sweetpotato weevils that can be used as targets for RNA interference strategies.
International Potato Center	CGIAR	990,234	06-2013	CGIAR	CGIAR	to provide local institutions and development practitioners with a low-cost and effective Agricultural Remote Sensing Information System (ARSIS) for gathering data on cropping areas and other data services related to smallholder agriculture

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Potato Center	CGIAR	4,000,000	04-2014	CGIAR	CGIAR	to build sustainable seed systems and increase nutritional and economic value capture for orange-fleshed sweet potato (OFSP) farmers, particularly women, in the West African countries of Ghana, Nigeria, and Burkina Faso. It will test and evaluate different approaches to integrating OFSP into diversified markets as a pathway to ensure the successful, accelerated introduction of a highly nutritious product that combats vitamin A deficiency into the food economy. Additionally, a public health component will enable ante-natal care practitioners to provide nutritional information and access to OFSP planting material to pregnant mothers, ensuring supply of a cheap source of vitamin A to mothers and their infants.
International Potato Center	CGIAR	19,748,015	06-2014	CGIAR	CGIAR	to produce high-yielding, disease-resistant varieties of sweet potato, especially nutritious orange-fleshed varieties, and tools for improved seed systems, in order to help farming families in Sub-Saharan Africa improve their productivity, incomes, and nutrition
International Rice Research Institute	CGIAR	19,896,653	11-2007	CGIAR	CGIAR	to reduce poverty and hunger and increase food and income security of resource-poor farm families and rice consumers in South Asia and sub-Saharan Africa through the development and dissemination of rice varieties tolerant of abiotic stresses
International Rice Research Institute	CGIAR	11,017,675	10-2008	CGIAR	CGIAR	to increase yield by increase the photosynthetic efficiency of rice
International Rice Research Institute	CGIAR	22,493,513	12-2008	CGIAR	CGIAR	to decrease hunger and poverty in South Asia by increasing rice, wheat and maize production
International Rice Research Institute	CGIAR	96,869	07-2009	CGIAR	CGIAR	to support the Conference in Beijing, China in connection with the IAAE conference
International Rice Research Institute	CGIAR	600,000	05-2010	CGIAR	CGIAR	to monitor the diffusion of improved crop varieties in rainfed areas of South Asia
International Rice Research Institute	CGIAR	10,287,784	11-2010	CGIAR	CGIAR	to address the problem of Vitamin A deficiency among millions of people in the Philippines and Bangladesh
International Rice Research Institute	CGIAR	20,000,000	03-2011	CGIAR	CGIAR	to develop and disseminate stress-tolerant rice varieties for smallholder farmers in Africa and South Asia.
International Rice Research Institute	CGIAR	8,375,747	05-2012	CGIAR	CGIAR	to increase yield by increasing the photosynthetic efficiency of rice
International Rice Research Institute	CGIAR	12,500,000	10-2013	CGIAR	CGIAR	to significantly increase the efficiency and genetic gain in irrigated rice breeding programs by using modern breeding tools and approaches to increase food and income security of resource-poor farmers, and to ensure rice food security in Asia and Africa
International Rice Research Institute	CGIAR	690,327	11-2013	CGIAR	CGIAR	conduct pilot survey to monitor varietal adoption and rice production in South Asia
International Rice Research Institute	CGIAR	32,770,000	03-2014	CGIAR	CGIAR	to reduce poverty and hunger and increase food and income security for farm families and rice consumers in South Asia and sub-Saharan Africa through the development and dissemination of high-yielding rice varieties tolerant of abiotic stresses
International Water Management Institute	CGIAR	9,012,826	11-2008	CGIAR	CGIAR	to create and disseminate a portfolio of promising technologies/interventions that can be deployed in support of agrarian poverty reduction for smallholders

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Council for Scientific and Industrial Research	Nat'l Research	100,000	10-2013	Africa	South Africa	to develop a more effective labor-saving practice or device by evaluating perceptions of labor and the need for labor-saving efforts for women smallholder farmers in three diverse regions of South Africa.
Ethiopian Agricultural Transformation Agency	Nat'l Research	398,588	07-2014	Africa	Ethiopia	to address the food security challenge for both smallholder farmers and urban populations in Ethiopia by developing a tef planter machine
Ethiopian Agricultural Transformation Agency	Nat'l Research	600,992	07-2014	Africa	Ethiopia	to make high-quality, real-time and periodic data about Ethiopian agricultural institutions accessible to public and private-sector stakeholders through a web-based portal and analytics
Lake Zone Agricultural Research and Development Institute	Nat'l Research	1,494,983	05-2013	Africa	Tanzania	to increase sweet potato productivity for improved food security and incomes in Uganda and Tanzania by adopting, adapting, and deploying a novel system for producing disease-free ("clean") planting material of acceptable varieties.
Mikocheni Agricultural Research Institute	Nat'l Research	1,872,927	10-2008	Africa	Tanzania	to support a cassava research program
Mikocheni Agricultural Research Institute	Nat'l Research	200,000	09-2012	Africa	Tanzania	to support the Mikocheni Agricultural Research Institute to continue work on cassava disease diagnostics and strengthen local capacity
Mikocheni Agricultural Research Institute	Nat'l Research	6,837,744	01-2013	Africa	Tanzania	to diagnose, characterize, monitor and sustainably manage viruses affecting cassava productivity in East and Southern Africa and enhance capacity of national cassava research programs located in sub-Saharan Africa
National Agricultural Research Organization	Nat'l Research	100,000	10-2013	Africa	Uganda	to reduce the time and labor needed to process groundnuts by developing and testing a simple plucking tool to remove the pods, utilizing input from Ugandan women smallholder farmers, and teaching local manufacturers to fabricate them.
National Agricultural Research Organization	Nat'l Research	100,000	10-2013	Africa	Uganda	to save time and labor for women smallholder farmers in Uganda and neighboring countries who harvest cassava by designing and evaluating a simple, low cost tool that can be operated in an upright manner and be locally fabricated.
National Agricultural Research Organization	Nat'l Research	499,853	09-2014	Africa	Uganda	to support the National Crops Resources Research Institute's project to implement the use of biochemistry-based election of weevil resistance to develop high yielding, nutrient rich and weevil resistant sweetpotato varieties for improved incomes, health and livelihoods of communities in Uganda
National Crops Resources Research Institute	Nat'l Research	199,801	09-2013	Africa	Uganda	to increase bean yields and improve livelihoods of smallholder farmers by developing bean varieties that are resistant to bean root rots
National Crops Resources Research Institute	Nat'l Research	3,506,840	11-2013	Africa	Uganda	to improve food security, increase profits and timely access to disease-free cassava planting material by small-scale farmers resident in cassava brown streak disease (CBSD) and cassava mosaic disease (CMD) affected areas of Uganda

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Sugarcane Research Institute - Kibaha	Nat'l Research	1,900,000	09-2012	Africa	Tanzania	to support the Sugarcane Research Institute - Kibaha to improve cassava production in Tanzania through community-based control and management of cassava brown streak disease using phytosanitation in order to managing cassava virus diseases
Sugarcane Research Institute - Kibaha	Nat'l Research	475,630	09-2014	Africa	Tanzania	to support the Sugarcane Research Institute - Kibaha's contributions to improved banana productivity through sustainable management of banana nematodes in Tanzania by use of proper and improved diagnostic tools
Tegemeo Institute of Agricultural Policy & Development	Nat'l Research	1,455,160	11-2013	Africa	Kenya	allow Tegemeo to reach the next level of its development and remove the barriers to growth, including finding new accommodation for the Institute, strengthening the relationship with Egerton University, and embedding Tegemeo as a national leader within Kenya
Harbin Veterinary Research Institute, CAAS	Nat'l Research	1,270,583	11-2013	Asia	China	to evaluate the ability of the BEN-1 vaccine to act as a highly effective and safe Contagious Bovine Pleuropneumonia (CBPP) vaccine that meets target product profile and that is a pivotal enabler for the control and then possibly elimination of the disease in Africa
Hokkaido University Catalysis Research Center	Nat'l Research	100,000	05-2012	Asia	Japan	to develop photoactive materials with antiseptic and antifungal properties for a new coating that can be used on food storage containers
Indira Gandhi Institute of Development Research	Nat'l Research	2,786,640	10-2012	Asia	India	to contribute to the reduction of hunger and malnutrition among India's poor and provide tools to decision makers to strengthen the pathways from agriculture to nutrition
Institute of Chemical Technology	Nat'l Research	100,000	04-2013	Asia	India	To save time, labor and costs, and extend storage life of harvested grains for women smallholder farmers by developing a mobile solar powered grain dryer to rapidly reduce the moisture content of grains.
Institute of Chemical Technology	Nat'l Research	100,000	10-2013	Asia	India	to protect animals and humans from brucellosis, which is an infectious disease, by developing a nanoparticle vaccine using Brucella species antigens bound to immunostimulatory molecules and mucoadhesive polymers for intranasal administration.
Institute of Chemical Technology	Nat'l Research	100,000	11-2013	Asia	India	to increase production of cassava, which is a major staple crop grown by women smallholder farmers, by designing and testing a low-cost movable dryer called CassavaTech to easily and more quickly dry large quantities of cassava.
Institute of Soil Science, Chinese Academy of Sciences	Nat'l Research	100,000	04-2013	Asia	China	To improve rice productivity and save labor in Southern China by developing and testing a cheap periphyton biofilm fertilizer, which is composed of a mixture of microorganisms, as a safer and more effective alternative to chemical fertilizer.
Shanghai Institute of Biological Sciences	Nat'l Research	481,388	10-2010	Asia	China	to support research that will guide the C4 rice project
Bioforsk	Nat'l Research	100,000	05-2012	Europe	Norway	to engineer a plant virus to express genes that will initiate RNA silencing in the sweet potato feather mottle virus, one of the most damaging crop viruses in Africa.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Biotechnology and Biological Sciences Research Council	Nat'l Research	8,000,000	11-2010	Europe	United Kingdom	to support high quality research on sustainable crop production in sub-Saharan Africa and South Asia
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH	Nat'l Research	25,374,840	02-2009	Europe	Germany	To develop the supply chains of African cashews to improve the incomes of small-holder farmers. <a href="http://aci.africancashewalliance.com/">http://aci.africancashewalliance.com/</a>
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH	Nat'l Research	8,516,263	11-2012	Europe	Germany	to increase the competitiveness of African cashew production and achieve sustainable poverty reduction in its project countries
Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH	Nat'l Research	17,200,397	10-2013	Europe	Germany	to improve the livelihoods of smallholder rice farmers and their family members in Nigeria, Ghana, Burkina Faso, and Tanzania
Deutsche Investitions- und Entwicklungsgesellschaft mbH	Nat'l Research	24,400,000	11-2008	Europe	Germany	to improve livelihoods of rural poor in African countries by increasing cotton-related income
Deutsche Investitions- und Entwicklungsgesellschaft mbH	Nat'l Research	7,994,966	08-2012	Europe	Germany	to double the yields of 85,000 Tanzanian coffee farmers
Deutsche Investitions- und Entwicklungsgesellschaft mbH	Nat'l Research	16,400,000	09-2012	Europe	Germany	to improve the livelihoods of smallholder cotton farmers and their family members in Benin, Burkina Faso, Côte d'Ivoire, Malawi, Mozambique, and Zambia
European Molecular Biology Laboratory	Nat'l Research	478,458	07-2010	Europe	United Kingdom	to support the development of strategies to protect cereals against rust pathogens and diagnostic tools for rust research
Hellenic Agricultural Organization - Demeter	Nat'l Research	46,016	04-2013	Europe	Greece	to support an international conference for scientists working on whitefly-related crop problems
Institut de recherche pour le développement	Nat'l Research	100,000	05-2012	Europe	France	to use new TALEN technology to modify the genomes of rice varieties to elevate resistance in these crops to emerging bacterial diseases.
Institut National de la Recherche Agronomique	Nat'l Research	100,000	05-2012	Europe	France	to target a newly described structure at the tip of aphid stylet to block transmission of plant viruses and disturb insect feeding.
Institute of Development Studies	Nat'l Research	145,032	11-2007	Europe	United Kingdom	to support the Farmer First Revisited conference
Institute of Development Studies	Nat'l Research	2,676,910	12-2008	Europe	United Kingdom	to support smallholder farmers in Africa and South Asia through impact planning and learning
John Innes Centre	Nat'l Research	100,000	05-2012	Europe	United Kingdom	to generate whitefly-resistant plants using RNAi targeted against genes essential to whitefly survival and reproduction.
John Innes Centre	Nat'l Research	9,872,613	06-2012	Europe	United Kingdom	to test the feasibility of developing cereal crops capable of fixing nitrogen as an environmentally-sustainable approach for small farmers in sub-Saharan Africa to increase maize yields
John Innes Centre	Nat'l Research	100,000	10-2012	Europe	United Kingdom	to investigate the ability of plant symbiotic bacteria to deliver plasmids that express viral coat proteins to crop plant cells and stimulate immunity against new viral infections.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Pirbright Institute	Nat'l Research	100,000	10-2013	Europe	United Kingdom	to aid peste des petits ruminants (PPR) disease control efforts by developing a thermo-tolerant vaccine based on human adenovirus 5 that enables differentiating infected from vaccinated animals (DIVA).
Pirbright Institute	Nat'l Research	189,232	11-2013	Europe	United Kingdom	to improve our understanding of, and effective use of, current control tools and measures (including vaccines) against peste des petits ruminants and foot and mouth disease, two serious diseases affecting livestock that are widespread in developing countries
Plant Resources of Tropical Africa Foundation	Nat'l Research	2,923,773	02-2009	Europe	Netherlands	to document and widely distribute information on useful plants of tropical Africa
Stichting DLO Centre for Development Innovation	Nat'l Research	1,500,000	07-2014	Europe	Netherlands	to develop a market-oriented, pluralistic, vibrant and dynamic seed sector in Africa for providing smallholder farmers access to quality seed of superior varieties.
The Sainsbury Laboratory	Nat'l Research	100,000	05-2012	Europe	United Kingdom	to test the feasibility of altering characteristics in plant crops to speed the introduction and multiplication of variants of resistance against pathogens
Brazilian Agricultural Research Corporation	Nat'l Research	2,498,374	10-2011	Latin America	Brasil	to enable Brazilian and African agriculture research organizations to collaborate on agricultural development to improve the productivity of smallholder farmers in the developing world
Brazilian Agricultural Research Corporation	Nat'l Research	6,957,203	11-2013	Latin America	Brasil	To enable Brazilian and African agriculture research organizations to collaborate on agricultural innovations on the African continent that will improve the productivity of smallholder farmers in Sub-Saharan Africa
Brazilian Institute of Geography and Statistics	Nat'l Research	50,000	10-2013	Latin America	Brasil	For the ICAS Conference, which convenes senior agricultural statisticians from all over the world, mainly representatives from national statistical offices and ministries of agriculture.
Biomedical Research Institute of New Mexico	Nat'l Research	100,000	10-2012	North America	USA	to develop biopolymers that encapsulate and protect fungal biopesticides to kill desert locusts that destroy crops in Africa.
Carnegie Institution for Science	Nat'l Research	100,000	10-2012	North America	USA	to develop GMO-free rice lines that can block the ability of pathogens to access host nutrients.
Compatible Technology International	Nat'l Research	100,000	04-2013	North America	USA	To improve quality and yield of pearl millet in West Africa by testing a suite of four manually-operated devices for processing this major food source, and exploring local financing and manufacturing possibilities.
Donald Danforth Plant Science Center	Nat'l Research	5,345,895	11-2008	North America	USA	to support the creation of a biosafety resource support network for the Grand Challenge #9 projects.
Donald Danforth Plant Science Center	Nat'l Research	8,257,560	11-2010	North America	USA	to support the development of high iron, protein, and proVitamin A cassava for Nigeria and Kenya
Donald Danforth Plant Science Center	Nat'l Research	5,548,750	04-2011	North America	USA	to support work on Mosaic and Brown Streak resistant cassava, Africa's most devastating cassava diseases.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Donald Danforth Plant Science Center	Nat'l Research	329,150	01-2012	North America	USA	to support a conference that is part of a triennial series of global meetings on cassava coordinated by the Global Cassava Partnership for the 21st Century
National Academy of Sciences	Nat'l Research	649,442	12-2006	North America	USA	to identify new scientific knowledge and promising technology with the potential to transform the production capabilities of farmers in Sub-Saharan Africa and South Asia
National Academy of Sciences	Nat'l Research	902,268	06-2007	North America	USA	to support a study that will generate an updated report on the science behind sustainable agricultural practices, and the factors important for the adoption and scaling of sustainable farming systems
National Academy of Sciences	Nat'l Research	150,000	04-2010	North America	USA	to convene experts from the public and private sector in agricultural development to help establish the dimensions of the food security challenge and explore how to sustainably meet growing food demands during the coming decades
National Academy of Sciences	Nat'l Research	250,000	11-2013	North America	USA	to complete a study that will identify critical research and development (R&D), technologies, and resource needs for research in the field of animal agriculture, both nationally and internationally (with particular focus on sub-Saharan Africa and South Asia)
National Science Foundation	Nat'l Research	24,000,000	11-2008	North America	USA	to build a foundation for generating sustainable, science-based solutions to problems of smallholder agriculture in developing countries, testing innovative hypotheses leading to novel and creative approaches and technologies
Public Library of Science	Nat'l Research	100,000	08-2013	North America	USA	to provide general operating support
Rhode Island Hospital	Nat'l Research	100,000	10-2012	North America	USA	to identify endophytes for important food plants in Sub-Saharan Africa that can help increase crop production while preventing the invasion of disease-causing pathogens.
South Carolina Research Foundation	Nat'l Research	48,373	07-2012	North America	USA	to support a conference to exchange scientific information concerning improvement of sorghum as high quality, resilient food and feed grain throughout the world
Texas A&M AgriLife Research	Nat'l Research	100,000	04-2014	North America	USA	to improve vaccination strategies for diseases that infect both humans and livestock, such as tuberculosis, by developing single vaccines that can protect both species and be locally produced in goats milk.
United States Department of Agriculture	Nat'l Research	365,937	11-2008	North America	USA	to support a study of locally produced school feeding programs in Africa
CSIRO	Nat'l Research	665,692	06-2014	Oceania	Australia	to improve our common understanding of productivity yield gaps for smallholder livestock farmers in Africa and Asia, in order to improve the targeting of donor and national livestock investments for increasing incomes and food security in developing countries
CSIRO	Nat'l Research	14,509,907	09-2014	Oceania	Australia	to develop high yielding sorghum and cowpea hybrids from which seeds can be saved and grown by smallholder farmers without loss of yield or quality

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
CSIRO Plant Industry	Nat'l Research	100,000	10-2012	Oceania	Australia	to produce rice and sorghum that are resistant to specific pathogenic fungi by introducing a known disease resistance gene, Lr34, from wheat.
Alliance for a Green Revolution in Africa	AGRA	96,910,362	12-2006	AGRA	AGRA	to increase access of smallholder farmers to improved crop varieties using a variety of production and distribution strategies
Alliance for a Green Revolution in Africa	AGRA	148,135,881	11-2007	AGRA	AGRA	to increase smallholder access to locally appropriate fertilizer, extend integrated soil fertility management practices including efficient fertilizer and organic matter use, and improve fertilizer and soil extension policies
Alliance for a Green Revolution in Africa	AGRA	15,000,000	11-2008	AGRA	AGRA	to launch a markets program at AGRA focusing on local and regional markets
Alliance for a Green Revolution in Africa	AGRA	15,000,000	10-2009	AGRA	AGRA	to develop a strong agricultural policy support system in Africa that will raise incomes and assure household and national food security
Alliance for a Green Revolution in Africa	AGRA	8,194,938	05-2010	AGRA	AGRA	to improve the livelihoods of smallholder farmers in sub-Saharan Africa by strengthening member-based farmer organizations to deliver demand-driven, income-enhancing services to their members
Alliance for a Green Revolution in Africa	AGRA	29,941,962	09-2010	AGRA	AGRA	to raise the incomes and livelihoods of millions of smallholder farmers in five African countries through meaningful improvements to their farm business operations and the market infrastructure of core food staples
Alliance for a Green Revolution in Africa	AGRA	56,001,491	11-2011	AGRA	AGRA	to increase the availability and accessibility of more resilient and higher yielding seed varieties of important food crops in sub-Saharan Africa
Alliance for a Green Revolution in Africa	AGRA	3,007,219	03-2012	AGRA	AGRA	to support bilingual graduate training in Agricultural Economics in Francophone Africa
Alliance for a Green Revolution in Africa	AGRA	10,000,000	03-2012	AGRA	AGRA	to provide general operating support
Alliance for a Green Revolution in Africa	AGRA	441,800	08-2012	AGRA	AGRA	to provide support for the African Green Revolution Forum in September 2012
Alliance for a Green Revolution in Africa	AGRA	4,000,662	09-2013	AGRA	AGRA	to build core advocacy capacity of AGRA, with modules linked to Policy Hubs and AGRA Comms
Alliance for a Green Revolution in Africa	AGRA	10,982,157	09-2013	AGRA	AGRA	to support African Governments' efforts to put in place policies and regulations that attract and facilitate increased private sector investment in local agribusinesses that deliver improved input technologies to poor smallholder farmers, and/or buy farm outputs from poor smallholder farmers
Alliance for a Green Revolution in Africa	AGRA	12,313,019	10-2013	AGRA	AGRA	to improve smallholder farmer productivity and income by training plant breeders to better serve seed companies and public institutions by designing and operating state of the art breeding pipelines, increasing genetic gains and accelerating adoption of improved varieties in Sub Saharan Africa
International Initiative for Impact Evaluation (3IE)	AGRA	4,500,002	07-2013	AGRA	AGRA	to support rigorous impact evaluation for AGRA and IFAD investments in the areas of markets, post-harvest losses, and seeds
African Agricultural Technology Foundation	AATF	35,895,080	02-2008	AATF	AATF	to develop drought tolerant maize for small farmers in Africa

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
African Agricultural Technology Foundation	AATF	200,000	11-2010	AATF	AATF	to support conferences that enhance knowledge-sharing and awareness on biotechnology and contribute to building an enabling environment for decision making
African Agricultural Technology Foundation	AATF	1,000,000	06-2011	AATF	AATF	for general operating support
African Agricultural Technology Foundation	AATF	3,577,285	03-2012	AATF	AATF	to enhance knowledge-sharing and awareness on agricultural biotechnology for improved understanding and appreciation
African Agricultural Technology Foundation	AATF	4,756,466	10-2012	AATF	AATF	to create Global Public Goods by selecting successful germplasm for global distribution along with the data, to create a strong, viable and sustainable 2-line rice hybrid breeding platform
African Agricultural Technology Foundation	AATF	48,950,981	10-2012	AATF	AATF	to develop and distribute improved maize hybrids for Africa that are drought-tolerant, insect-resistant, and higher yielding
African Agricultural Technology Foundation	AATF	104,391	10-2013	AATF	AATF	to support for increased participation of African and South Asian scholars and policy makers at the 2014 ICABR Annual Meeting
African Evaluation Association	NGO	931,492	11-2012	Africa	Ghana	to strengthen measurement and evaluation capacity to design and implement high caliber evaluations of grantees across the African continent
Association for Progressive Communications	NGO	132,224	04-2009	Africa	South Africa	to explore Mobile Solutions for Small-Scale Agriculture in Africa
Collaborative Africa Budget Reform Initiative	NGO	2,999,896	10-2012	Africa	South Africa	to support CABRI's efforts to enhance budget transparency, better public finance management, and improved spending in the agricultural sector in Africa
Farm Concern International	NGO	6,027,019	09-2010	Africa	Kenya	to increase the profitability of horticulture production by creating efficient marketing mechanisms to serve domestic markets in four countries in Sub-Saharan Africa
Farm Concern International	NGO	100,000	10-2013	Africa	Kenya	to promote farming-related trade between rural African villages by developing a mobile phone platform for ordering and paying for farming-related materials, products and services, as well as establishing a distribution and supply network.
Farm Concern International	NGO	499,975	10-2013	Africa	Kenya	for a landscape analysis of banana and orange sweetpotato to assess viable opportunities, barriers, consumer markets, sustainable innovations, and the business environment along the seed-farmer-market-consumer value chain to form the basis of comprehensive programmatic market-led interventions
Farm Concern International	NGO	6,383,203	08-2014	Africa	Kenya	to optimize profitability and productivity by catalyzing market oriented value chain-wide competitiveness and investments in banana and sweet potato for increased household income
Information Training and Outreach Centre for Africa	NGO	985,898	11-2007	Africa	South Africa	to support access to comprehensive, up-to-date information on agricultural education and extension in Africa
KEL Growing Nations Trust	NGO	100,000	04-2013	Africa	Lesotho	To save labor and time for small-scale women farmers planting maize and other grain crops by developing and testing an adapted rotary punch seed planter.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Kilimo Trust	NGO	150,000	10-2013	Africa	Uganda	to support the International Symposium on Agricultural Development on the Occasion of All EAC Partner States @ 50 years of Independence with the objective of increasing income, food and nutrition security for smallholder farmers through integrated deeper markets among the East African Community (EAC).
Pride Africa	NGO	748,463	08-2007	Africa	Kenya	to develop a supply chain management system to support smallholder farmers by financing the production and marketing of sunflower oilseed in Western Kenya
SAIDE	NGO	1,174,956	10-2012	Africa	South Africa	to provide Open Educational Resources methods and approaches in crop and livestock science in African universities and research institutions to promote an institutional and small-holder centric approach to teaching, research and development
Send a Cow Rwanda	NGO	100,000	10-2013	Africa	Rwanda	to empower Rwandan women to make financial and domestic decisions by educating men and women on gender barriers and social behavior issues in order to stimulate the use of available energy-saving stoves for cooking, thereby saving time and labor.
Southern African NGO Network	NGO	1,699,822	06-2010	Africa	South Africa	to develop mobile phone applications that will help agricultural support organizations boost incomes of small-scale farmers and increase the effectiveness of selected agricultural development programs in Sub-Saharan Africa
The Smallholders Foundation	NGO	100,000	10-2013	Africa	Nigeria	to save labor costs associated with processing cassava, a major staple food grown by women smallholder farmers, by improving and testing their Box in a Truck design for extending the lifespan of harvested cassava.
The Southern African Confederation of Agricultural Unions	NGO	4,348,368	06-2010	Africa	South Africa	to increase the incomes of smallholder farmers in Southern Africa by strengthening Farmers' Organizations and increasing their smallholder membership
The Southern African Confederation of Agricultural Unions	NGO	1,480,635	04-2013	Africa	South Africa	to demonstrate the effectiveness and potential for wider replication of an electronic farmer management system that enhances the market position of large numbers of smallholder farmers and improves the performance of farmers' organizations (FOs)
BAIF Development Research Foundation	NGO	182,152	05-2008	Asia	India	to develop a sustainable model to scale-up delivery of dairy-based animal husbandry services
BAIF Development Research Foundation	NGO	6,248,633	11-2009	Asia	India	to increase of small farmer incomes and test a financially sustainable dairy input delivery model by establishing cattle development centers utilizing different operational and financial approaches, and rigorously evaluating and sharing results
Professional Assistance for Development Action	NGO	10,243,389	04-2009	Asia	India	to create sustainable livelihoods for rural farming families in poor regions of India by training women farmers in land, water management and other farming practices
Professional Assistance for Development Action	NGO	20,626,866	10-2013	Asia	India	to develop sustainable agri-based livelihood systems for women-led families in India
Samaj Pragati Sahayog	NGO	150,000	06-2009	Asia	India	to build understanding of watershed issues critical to rain fed agriculture and the livelihoods of small scale farmers in India

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
CAB International	NGO	4,679,744	11-2010	Europe	United Kingdom	to support the distribution of up-to-date knowledge on integrated soil fertility management to drive increased productivity on smallholder farms in sub-Saharan Africa
Food & Agricultural Research Management Limited	NGO	5,188,438	11-2010	Europe	United Kingdom	to develop an Animal Health Services Franchising Business for the delivery of vaccines and pharmaceuticals to smallholder farmers in Kenya
Food & Agricultural Research Management Limited	NGO	100,000	04-2013	Europe	United Kingdom	To improve access and use of existing labor-saving technologies for women farmers in Ethiopia growing maize and sorghum by supporting trial and financing, and by promoting social acceptance and local manufacturing.
Fundación Intermon Oxfam	NGO	100,000	04-2013	Europe	Spain	To reduce the labor intensity of parboiled rice production for Burkinabe women by developing and evaluating more efficient and durable rice husk furnaces and lower-cost rice sorting equipment.
Global Alliance For Livestock Veterinary Medicines	NGO	22,515,040	09-2008	Europe	United Kingdom	to develop solutions to the key diseases that affect animals and thus their sustainability and health
Global Alliance For Livestock Veterinary Medicines	NGO	41,222,104	11-2011	Europe	United Kingdom	to develop solutions to the key diseases that affect small farmers' livestock in sub-Saharan Africa and South Asia
Global Alliance For Livestock Veterinary Medicines	NGO	1,421,722	01-2014	Europe	United Kingdom	to develop safe and effective drugs against drug-resistant Animal African Trypanosomosis (AAT) as well as a diagnostic test for field diagnosis of infection in cattle, and improving the quality control of existing trypanocides used by smallholder livestock keepers in sub-Saharan Africa
Global Alliance For Livestock Veterinary Medicines	NGO	7,637,490	06-2014	Europe	United Kingdom	to develop and promote the adoption of effective Animal African Trypanosomosis (AAT) disease control tools for small-scale livestock keepers in affected regions of sub-Saharan Africa
Hanns R. Neumann Stiftung	NGO	394,460	12-2008	Europe	Germany	to develop farmer to farmer learning tool and investigation of areas that would benefit from the tool
Hanns R. Neumann Stiftung	NGO	4,170,690	11-2009	Europe	Germany	to improve the livelihood of poor Ugandan coffee farmers by improving their production and marketing capacity
Keystone Accountability	NGO	100,000	04-2014	Europe	United Kingdom	to support African agricultural development decisions by building an open web-based processing system to organize feedback collected directly from farmers and enable data analysis by agricultural institutions.
Oxfam Great Britain	NGO	1,325,191	10-2009	Europe	United Kingdom	to identify the best ways of strengthening the livelihoods of rural women agricultural producers in sub-Saharan Africa through collective action
Oxfam Solidarité	NGO	100,000	04-2013	Europe	Belgium	To design, produce and test labor-saving hoes for tilling and weeding in Northern Mozambique by bringing together women smallholder farmers, local blacksmiths and scientists in a participatory approach.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Research Institute of Organic Agriculture	NGO	302,783	10-2009	Europe	Switzerland	for the production of the African Organic Farming and Training Resource Manual that delivers best organic farming competencies to farmers, farmer groups, rural advisors, extensionists, agricultural teachers, self-help groups, researchers and NGOs
Vita	NGO	100,000	04-2013	Europe	Ireland	To save operating times and costs of cooking in Ethiopia by developing a sustainable financial and social model to locally produce and implement more efficient cooking stoves.
Instituto Kairós	NGO	100,000	10-2013	Latin America	Brasil	to increase crop yield and decrease associated time and labor costs for African small-holder farmers by producing and testing a new seed planting system using biodegradable paper strips, which protects the seeds and improves growth.
Sasakawa Africa Association	NGO	7,149,533	09-2010	Latin America	Mexico	to implement a series of innovations in Ethiopia's extension system to improve the system's overall performance at a national-scale and generate productivity improvements for smallholders
ActionAid USA	NGO	4,533,391	09-2011	North America	USA	to catalyze increased quantity and quality of public investment in agriculture
Acumen Fund, Inc.	NGO	6,739,795	11-2008	North America	USA	to provide risk capital and management support to entrepreneurs improving the provision of agricultural inputs to smallholder farmers, to better the lives of poor farmer families
American Institutes for Research in the Behavioral Sciences	NGO	590,239	09-2008	North America	USA	to support the development of a project plan for rural farmer radio in Africa
American Institutes for Research in the Behavioral Sciences	NGO	9,969,232	08-2009	North America	USA	to share vital agricultural information over the radio to enhance the livelihoods of small-holder farmers in Africa
Ashoka	NGO	15,084,305	11-2008	North America	USA	to bring lasting agricultural solutions to India and Africa and to expand access to financial and information services for the poor across the globe
Canadian Foodgrains Bank	NGO	1,495,771	06-2014	North America	Canada	to build political will and public support for the reduction of hunger and poverty through sustained Canadian foreign assistance levels for agricultural development
CARE	NGO	3,591,544	10-2006	North America	USA	to raise awareness of global health, hunger, and poverty through the "ONE" Campaign
CARE	NGO	5,804,718	10-2007	North America	USA	to improve incomes of landless and smallholder farmers by enhancing their participation in and profit from the milk value chain through increased production and quality, enhanced animal health service, and better access to transport and markets
CARE	NGO	15,000,000	11-2011	North America	USA	to increase women farmers' productivity and empowerment in more equitable agriculture systems in sub-Saharan Africa and South Asia
CARE	NGO	3,796,631	10-2012	North America	USA	to increase the dairy income and create more sustainable livelihoods for smallholder rural dairy producers in North and Northwest Bangladesh, through their participation in a sustainable dairy hub model

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Catholic Relief Services	NGO	23,876,316	12-2007	North America	USA	to increase small farmer cassava productivity by strengthening farmer groups to more effectively manage pests and diseases, access disease resistant planting material and adopt better agronomic and integrated pest management practices
Catholic Relief Services	NGO	4,267,000	11-2011	North America	USA	to support research and development of agronomic technologies and in turn help increase productivity and resilience needs of smallholder farmers in Bihar
Catholic Relief Services	NGO	2,999,575	04-2012	North America	USA	to develop, test, document and promote commercially-sustainable supply chains for affordable quality assured cassava seed, serving small farmers in Nigeria
Catholic Relief Services	NGO	100,000	04-2014	North America	USA	to optimize business-focused agricultural services that use technology, such as mobile-phone delivered courses on business planning, by testing different ways of obtaining feedback on their performance and value directly from farmers.
CNFA	NGO	2,990,964	02-2009	North America	USA	to support a project to increase the incomes of poor Ghanaian cocoa farming families in Africa
Conservation International Foundation	NGO	496,793	06-2011	North America	USA	to support the examination of the diversity and prevalence of Madagascar's community-based mechanisms for managing agricultural risk and test their effectiveness
Conservation International Foundation	NGO	10,004,586	02-2012	North America	USA	to develop a monitoring system to collect and analyze data on the environmental impacts of agricultural development in sub-Saharan Africa
Cooperative League of the USA	NGO	3,858,858	08-2007	North America	USA	to improve economic and social conditions for people in the developing world through collective entrepreneurship
D-Rev: Design for the Other Ninety Percent	NGO	425,257	10-2009	North America	USA	to survey and market-test ultra-low-cost multimedia devices for use in agricultural extension work
Diagnostics For All	NGO	1,988,318	02-2011	North America	USA	to support the development of low cost diagnostic tests for bacterial contamination of milk, cow pregnancy, and aflatoxin in maize to increase smallholder farmer's income
Diagnostics For All	NGO	1,267,971	04-2014	North America	USA	to support development of a low-cost field diagnostic for heat detection in bovine animals, in order to improve milk yields for smallholder farmers
Digital Green	NGO	2,861,910	06-2009	North America	USA	to disseminate locally produced agricultural information to smallholder farmers
Digital Green	NGO	9,970,086	06-2012	North America	USA	to disseminate agricultural information via participatory video and mediated instruction in partnership with India's Natural Rural Livelihood Mission, in order to raise income and improve food security for 500,000 smallholder farmer households
Ecoagriculture International Inc.	NGO	125,074	04-2009	North America	USA	to plan a multi-year project to strengthen methods and institutional capacities of Ecoagriculture Partners and World Neighbors for managing ecoagriculture landscapes in Africa
Ecoagriculture International Inc.	NGO	275,000	07-2010	North America	USA	to provide general operating support

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Episcopal Relief and Development	NGO	100,000	10-2013	North America	USA	to decrease labor costs and increase productivity of women smallholder farmers in sub-Saharan Africa by promoting the use of donkeys with ploughs for draught power by training potential users and providing affordable financing options.
Fiorello H. LaGuardia Foundation	NGO	138,833	03-2010	North America	USA	to provide support for a conference in Brazil to design a Program of Projects to transfer successful smallholder conservation agricultural strategies from Latin America to Africa
Global Development Analytics	NGO	319,869	07-2014	North America	USA	to provide a historical reanalysis of historical (2009-2013) hourly, global, gridded multi-satellite rainfall estimates that will support crop modeling, variety selection, weather-indexed insurance (in conjunction with terrestrial weather stations) and other derived uses to support value-chain decisions and logistics in service of smallholder farmers in Africa and South Asia
Grameen Foundation USA	NGO	393,896	12-2008	North America	USA	to support a project for community knowledge workers
Grameen Foundation USA	NGO	7,690,418	10-2009	North America	USA	to develop a network of community knowledge workers in Uganda using mobile devices to increase the reach and relevance of agricultural information, leading to improved productivity and livelihoods for small-holder farmers
Heifer Project International	NGO	51,318,105	12-2007	North America	USA	to increase the incomes of smallholder dairy farmers through enhancing their access to and profit from dairy markets, improving the productivity of their cows and increasing their access to and use of improved inputs
Heifer Project International	NGO	25,562,737	11-2013	North America	USA	to support the institutional capacity of ISSER, help it achieve its goals and contribute to it becoming an important regional hub for MLE within the Agricultural Learning and Impacts Network (ALINe) initiative
IDEO.org	NGO	499,979	10-2010	North America	USA	to support improved livelihoods in rural communities by freely distributing the Human Centered Design (HCD) toolkit to the non-profit public and creating a peer-based hub of ongoing support for social innovation at the local level
IDEO.org	NGO	100,000	04-2013	North America	USA	To improve productivity and incomes for Indian smallholder farmers by designing and testing a micro-franchise system incorporating financing, training and equipment maintenance for renting out small and mid-sized timesaving agricultural implements.
International Development Enterprises	NGO	14,244,609	11-2006	North America	USA	to develop small-plot water technologies, technology markets, and connect farmers to fruit and vegetable markets in Ethiopia, Zambia, Nepal, and Myanmar
International Development Enterprises	NGO	23,804,794	11-2007	North America	USA	to improve smallholder farmers' access to affordable, efficient irrigation technologies
International Development Enterprises	NGO	7,315,925	01-2011	North America	USA	to increase smallholder farmers' income through micro-irrigation and related interventions in Ethiopia, Zambia, and Ghana

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
International Development Enterprises	NGO	282,831	07-2013	North America	USA	to complete and launch Limalinks, a mobile phone-based tool that connects small-scale horticultural farmers with output markets
KickStart International	NGO	8,196,637	07-2007	North America	USA	to develop improved small-scale pump technologies, expand nationally the market distribution network for pumps, and monitor the impact on smallholder farmers in Tanzania
Mennonite Economic Development Associates	NGO	3,429,821	02-2012	North America	Canada	to develop, test, document and promote commercially-sustainable supply chains for affordable quality-assured cassava seed systems serving small farmers in Tanzania
Mennonite Economic Development Associates	NGO	100,000	10-2013	North America	USA	to promote dry season cultivation in small farms in Northern Ghana by field-testing different models of water catchment, storage and irrigation systems, and performing cost-benefit analyses.
National 4-H Council	NGO	129,076	07-2010	North America	USA	to support an African-based program that will help youth participate productively in the agricultural sector
National 4-H Council	NGO	1,499,980	11-2011	North America	USA	to launch 4H's work in Sub-Saharan Africa through national partners in Tanzania, Ghana and Ethiopia to equip the next generation of African smallholders with the knowledge and skills to participate productively in crop and livestock value-chains
National Peace Corps Association	NGO	497,430	03-2009	North America	USA	to develop and pilot a new web-based social network of Diaspora and others in the U.S. connected to rural African communities
National Peace Corps Association	NGO	716,318	11-2009	North America	USA	to further develop and operationally expand a new web-based social network for addressing the needs of rural agricultural communities in Sub-Saharan Africa
NetHope	NGO	442,144	10-2010	North America	USA	to support an Initiative to increase reliable weather and climate information for farmers throughout Africa
Oliver's Planet, Inc	NGO	100,000	04-2014	North America	USA	to promote the funding and success of agricultural projects in developing countries by building an online platform using SMS to crowd source expertise directly from rural farmers for creating feasible solutions to relevant agricultural issues.
One Acre Fund	NGO	11,642,932	07-2013	North America	USA	to significantly increase smallholder farmer adoption of existing and impactful technologies
Oxfam-America Inc	NGO	5,382,083	09-2010	North America	USA	to implement a series of innovations in Ethiopia's extension system, one of the largest in the world, to improve the system's overall performance at a national-scale and generate productivity improvements for smallholders
Oxfam-America Inc	NGO	467,556	11-2010	North America	USA	to advance understanding of the relationship between community-based coping mechanisms, external interventions, and the pressures of climate change in sub-Saharan Africa
Oxfam-America Inc	NGO	100,000	04-2013	North America	USA	To promote widespread adoption of cheap and labor-saving groundnut shellers for Ethiopian women farmers by incorporating also the private sector and the Ethiopian Agricultural Extension System in the design and development process.

GRANTEE	TYPE	AMOUNT	DATE	REGION	COUNTRY	PURPOSE
Oxfam-America Inc	NGO	100,000	10-2013	North America	USA	to promote the widespread adoption of labor-saving weeder machines tailored for smallholder women farmers in Cambodia by launching a marketing strategy to stimulate demand, and working with local fabrication businesses to promote supply.
Rainforest Alliance, Inc.	NGO	5,343,026	11-2007	North America	USA	to develop and implement new business models that enable smallholder farmers to participate in sustainable trading relationships with multinational business
Root Capital Inc.	NGO	7,500,000	11-2009	North America	USA	to provide loans and financial training to small and growing rural businesses in Africa
Rural Development Institute	NGO	7,679,826	12-2008	North America	USA	to help landless women agricultural laborers and their families in rural India to increase food security and income through secure land access and community gardens
SNV USA	NGO	7,586,520	09-2011	North America	USA	to improve the livelihoods of smallholder farmers in Sub-Saharan Africa, particularly women, by increasing their access to the structured demand market opportunities of national school feeding programs in Ghana, Kenya, and Mali
SNV USA	NGO	3,526,044	11-2012	North America	USA	to strengthen the technical and managerial capacities of agricultural cooperatives in Ethiopia
SNV USA	NGO	100,000	04-2014	North America	USA	to promote the coffee industry in Rwanda by facilitating communication between smallholder coffee producers and district coffee taskforces, which consider issues including production and market access, using smartphones and visual presentations.
Social Profit Network	NGO	294,671	12-2008	North America	USA	to support a study of low-cost milk sterilization
Synergos Institute, Inc	NGO	10,095,010	10-2011	North America	USA	to contribute to the Ethiopian Agricultural Transformation Agency (ATA) by supporting ATA's program delivery which aims to accelerate Ethiopia's agricultural development, grow the economy, and improve the livelihood of smallholder farmers
Synergos Institute, Inc	NGO	10,061,631	08-2014	North America	USA	to provide organizational development and capacity building support to the Ethiopian Agricultural Transformation Agency and to the Ministry of Agriculture to advance Ethiopia's agricultural development
TechnoServe, Inc.	NGO	885,901	07-2007	North America	USA	to conduct several key studies to better understand the coffee industries in East African countries
TechnoServe, Inc.	NGO	46,955,200	11-2007	North America	USA	to help entrepreneurial men and women in poor rural areas of the developing world build business that create income, opportunity, and economic growth for their families, their communities and their nations
